

# Attendance Matters: Spring Challenge

**Spring is finally here and with the longer days comes the “Spring Slump”! The time of year when students often miss more school as they look ahead to their well-deserved summer break.**

**We at Haverhill Public Schools want to remind everyone how important these months are to your child’s academic growth. In the classroom students are mastering the skills they have worked on all year and teachers are providing targeted supports to those students still struggling to help them complete the year on target.**

**This May to encourage everyone to end the year strong our K-8 schools will challenge their students to attend daily on time each day. Those students who make it all 22 days will receive a special “Spring Challenge” reward.**

**Please continue to encourage your child to attend school on time every day unless medically excused and reach out if we can support you in any way.**
